Hodaka motorcycles were some of the most creatively marketed and designed motorcycles in America. The bike of choice for the hip young racer, the street-savvy urbanite, or the 14-year-old boy's favorite poster, these machines had colorful logos, creative advertising and terrific names. The Combat Wombat, Road Toad, Dirt Squirt and the fantastic Super Rat are just a few of the models produced by Hodaka. More than 15 years in the making, this exhaustively-researched tome contains all the details about the machines as well as a treasure trove of photographs, advertisements, and graphics. Written by Ken Smith, the editor of VMX Magazine, and created with the help of Paul Stannard of Strictly Hodaka and many of the people who designed and sold Hodakas back in the day, this book is a captivating, colorful look at one of the wildest, most popular motorcycles of the 1960s and 1970s.

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

Haynes has discovered all the problems that motorcycle owners could possibly encounter when rebuilding or repairing their bikes. Documenting the most common DIY fixes with hundreds of illustrations and step-by-step instructions, this compendium of repair, modification and troubleshooting advice is applicable to all domestic and import marques.

In 1974, Honda took the wraps off a 1000cc flat four with shaft drive and water cooling, and the Honda Gold Wing was born. Renowned photographer Malcolm Birkitt has included coverage of Honda's dynamic, new Valkyrie in this update of his best-selling Honda Gold Wing title, as well as examining all the changes in the Gold Wing since 1995. Included are intriguing early design sketches and portraits by Honda's designers and engineers.

Haynes offers the best coverage for cars, trucks, vans, SUVs and motorcycles on the market today. Each manual contains easy to follow step-by-step instructions linked to hundreds of photographs and illustrations. Included in every manual: troubleshooting section to help identify specific problems; tips that give valuable short cuts to make the job easier and eliminate the need for special tools; notes, cautions and warnings for the home mechanic; color spark plug diagnosis and an easy to use index.

This book opens with a maintenance survey to help identify likely problems and to guide the reader to the appropriate specialized sections. A chapter devoted to tools and techniques precedes the coverage of hull types.

The Airbus A380 is the world's most recognised and most talked about airliner since the Boeing 747 and Concorde appeared in the skies in the late 1960s. Designed to challenge Boeing's monopoly in the large-aircraft market, it made its first flight in April 2005, entering commercial service two years later with Singapore Airlines. This jet has become so popular that every four minutes--24 hours a day, seven days a week--an A380 is taking off or landing somewhere in the world. There is no other development in recent aviation history to rival this remarkable aircraft.
