REIMAGINING RACIAL DIFFERENCE explores the deep spaces of race beyond the socio-historical constructs that are responsible for systematic inequality. Surprising new dimensions of humanity are exposed by the resulting perspective. Color photos

Undergraduate course in Entrepreneurship and New Venture creation. Entrepreneurship 2/e takes students on the entire journey of launching a new venture, with a unique emphasis on the front end of the entrepreneurial process. Large, diversified firms face unique challenges as they compete worldwide, and corporate restructuring is one way multinationals strive for competitive advantage. Weighing the pros and cons of a variety of approaches to restructuring, Downscoping offers executives a clear, strategic path through the maze. The authors show that when a multinational conglomerate fails to compete effectively, too much diversification may be the culprit. Whether the result of weak corporate governance or poor corporate strategy, over-diversification can make man-

agers, unfamiliar with some of the markets in which they compete, opt for safety over innovation. This risk-aversion and lack of long-range commitment to innovation lead inevitably to stagnation over the longer term. The answer is not downsizing--closing offices and laying off personnel--but downscoping: a strategic approach to restructuring. The options include incentive and compensation adjustments for executives, leveraged buyouts and capital structure changes, focusing on core skills, diversifying internationally while focusing on businesses in which a firm has strong competencies, and buying and selling mature businesses where product development is not a great concern. Regardless of the approach, executives must exercise strategic leadership during and after restructuring, including providing strategic direction, exploiting core competencies, developing human capital, and sustaining the corporate culture. Based on systematic research rather than casual observation, Downscoping provides a strong description of restructuring alternatives and their resulting tradeoffs. Its specific guidelines for maintaining competitive-

ness will be essential reading for managers involved in corporate restructuring.

Introduce your students to strategic management with the market-leading text that has set the standard for the most intellectually rich, yet thoroughly practical, analysis of strategic management concepts today. Written by highly respected experts and prestigious instructors Hitt, Ireland and Hoskisson, *STRATEGIC MANAGEMENT: COMPETITIVENESS AND GLOBALIZATION, CONCEPTS, 10E* is the only book that integrates the classic industrial organization model with a resource-based view of the firm to give students a complete understanding of how today's businesses use strategic management to establish a sustained competitive advantage. The authors combine the latest, cutting-edge research and strategic management trends with insights from some of today's most prominent scholars. A strong global focus and carefully selected examples from more than 600 emerging and established companies place concepts into context within an inviting, relevant and complete presentation. A wealth of learning features and experiential exercises address numerous critical issues confronting managers today. Various online teaching tools and a complete electronic business library help keep study current and relevant. Count on this Concepts text to provide the solid understanding of critical strategic management concepts your students need to increase performance and establish a clear competitive advantage. I had just moved into my first apartment and finally felt like I was free. I was hold-

ing down a job and handling everything on my own enjoying my new place until one day I found out I wasn't the only one enjoying it. Somehow and somehow I was being watched. But how and by whom? I would soon find out that there were cameras that I couldn't see in my apartment not by word of mouth but by watching the daily news and learning from tips I was getting from my friends on social media sites like Facebook, Snapchat, and Instagram. And what started as a small joke between close friends soon spilled over into the entertainment world from music to sports and even daytime shows until it eventually reached the head of our country, the president of the United States.

'Oviatt and McDougall have produced a significant and supremely useful volume bringing together the best of the latest thinking and research on the topics and processes of international entrepreneurship, as well as some of the classics of the field. For serious students of this growing area of research, this volume makes getting up to speed on the topic a simple matter.' - Jerome Katz, Saint Louis University, US International entrepreneurship is becoming the focus for major research initiatives in universities throughout the world. This timely volume presents a careful selection of the most important articles on international entrepreneurship. The editors have chosen key contributions from a comprehensive range of sources and have successfully made a selection that represents a variety of different perspectives.

Introduce the most important theories and views in strategic management today with this concise, yet fully complete, text. Harrison/St. John's *FOUNDATIONS IN STRATEGIC MANAGEMENT*, Sixth Edition, addresses the most recent changes

in today's business environment, including many topics that other strategic management texts often miss. The book thoroughly addresses the traditional economic process model and the resource-based model, as well as the stakeholder theory. This valuable text builds on a traditional theoretical foundation by using engaging examples from many of today's leading firms to demonstrate principles and applications. This edition continues to highlight strategizing in the global arena as well as more focused coverage of stakeholder management. This brief, well-rounded text functions as an indispensable resource for your immediate and long-term success in strategic management. Available with InfoTrac Student Collections

Don't miss out on RENAL DIET COOKBOOK: MEGA BUNDLE - 4 Manuscripts in 1 -160+ Renal - friendly recipes including breakfast, side dishes and dessert then you can begin reading this amazing book!

Twenty years ago I set out to photograph children all around the world. My first trip was to the south of India. I started in the province of Tamil Nadu, first living in a Church Women Centre in the city

of Chennai, then in Mugaiyur, a small village. For six months I took pictures and had conversations with roommates, guides, and members of the families who had taken me in as a guest. I had very many questions, as did they. After children, the main subject was always love. Everything I heard from them and saw around me there filled me with both surprise and doubt, but above all with admiration. I admired their courage and faith. Their arranged marriages were a fascinating mystery to me. One way to understand arranged marriages was to make portraits. I photographed women and men various ages, engaged or planned couples and married couples.

The enterprise data center has evolved dramatically in recent years. It has moved from a model that placed multiple data centers closer to users to a more centralized dynamic model. The factors influencing this evolution are varied but can mostly be attributed to regulatory, service level improvement, cost savings, and manageability. Multiple legal issues regarding the security of data housed in the data center have placed security requirements at the forefront of data center architecture. As the cost to operate data centers has increased, architectures have moved towards consolidation of servers and applications in order to better utilize assets and reduce "server sprawl." The more diverse and distributed the data center environment becomes, the more manageability becomes an issue. These factors have led to a trend of data center consolidation and resources on demand using technologies such as virtualization, higher WAN bandwidth technologies, and newer management technologies. The intended audience of this book is network architects and network administrators. In

this IBM® Redbooks® publication we discuss the following topics: The current state of the data center network The business drivers making the case for change The unique capabilities and network requirements of system platforms The impact of server and storage consolidation on the data center network The functional overview of the main data center network virtualization and consolidation technologies The new data center network design landscape

We all have them, right? Those authors that we follow religiously. They're 'go to' authors. They're our unicorn - rare and wonderful. Cover Version 2 This book helps you keep track of your unicorns, their books and release dates etc... Never miss a release date again!

In 1999, MCI WorldComm and Sprint agreed to merge. Valued at \$129 billion, this expected transaction was the largest in history. However, it fell victim to regulators in Europe concerned with the potential monopoly power of the merged firm. This M&A action was merely the latest in a growing trend of "blockbuster" mergers over the past several years. Once a phenomenon seen primarily in the United States, mergers and acquisitions are increasingly being pursued across national boundaries. In short, acquisition strategies are among the most important corporate-level strategies in the new millennium. The need for clear, complete, and up-to-date guide to successful mergers and acquisitions had never been greater. This book more than fills that need. Looking at successful--and unsuccessful--mergers and acquisitions in a number of different industries, *Mergers and Acquisitions: A Guide to Creating Value* explains how to conduct an acquisition and how to avoid pitfalls that have doomed many such ventures. The authors take the reader

step-by-step through the process, starting with the elements of a successful merger, due diligence to ensure that the target firm is sound and fits well with the acquiring firm, and how mergers and acquisitions are financed. They move on to explore how firms find partners/targets for acquisitions that have complementary resources and how to find partners with which integration and synergy can be achieved. Finally, they discuss the potential hazards found in M&A's and how to avoid them, how to conduct successful cross-border acquisitions, and how to ensure that ethical principles aren't breached during the process. Based on 15 years of research, this essential guide goes beyond specific case studies to cover all aspects of these ventures, making it required reading for all managers seeking to build a successful strategy.

This journal features: 6 x 9" size - big enough for your writing and small enough to take with you 120 college ruled lined pages smooth cream-color paper, perfect for ink, gel pens, pencils or colored pencils a matte-finish cover for an elegant and professional look soft paperback which feels valueable Journals to Write In offers a wide variety of journals, so keep one by your bedside as a dream journal, one in your car to record mileage and expenses, one by your computer for login names and passwords and one in your purse or backpack to jot down random thoughts and inspirations throughout the day. The Regents External Degree Program (REDP) provides an alternate route to a college degree for those who have gained college-level knowledge outside a formal classroom setting.

"The following Essays are, with one exception, written either by members of the Methodist Society for Medical and Pastoral Psychology, or by those who have lectured to the Society's Annual conference and shared its discussions."
— From the Preface

Discover the knowledge and tools that today's most successful firms use to build business and consistently outperform the competition when you open the latest edition of Ireland/Hoskisson/Hitt's UNDERSTANDING BUSINESS STRATEGY: CONCEPTS AND CASES, Second Edition. This concise, hands-on approach by recognized leaders in business strategy clearly demonstrates how solid management strategy equals the decisive, responsive action that prosperous firms use to create sustainable competitive advantage. This edition guides you, step-by-step, through creating strong strategy, planning for success, implementing responsive action, competing effectively with strategy, analyzing the environment and firm, and improving upon results. The authors clearly connect strategy concepts to the real business world, giving you the unique opportunity to examine and learn from strategy that has worked as well as strategy that has failed within familiar companies. The latest research and insights from global business leaders, extensive examples, and practical cases help equip you with the hands-on

skills and career tools for your own superior performance and strategic management success. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The book is about user interfaces to applications that have been designed for social and physical interaction. The interfaces are 'playful', that is, users feel challenged to engage in social and physical interaction because that will be fun. The topics that will be present in this book are interactive playgrounds, urban games using mobiles, sensor-equipped environments for playing, child-computer interaction, tangible game interfaces, interactive tabletop technology and applications, full-body interaction, exertion games, persuasion, engagement, evaluation and user experience. Readers of the book will not only get a survey of state-of-the-art research in these areas, but the chapters in this book will also provide a vision of the future where playful interfaces will be ubiquitous, that is, present and integrated in home, office, recreational, sports and urban environments, emphasizing that in the future in these environments game elements will be integrated and welcomed.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruc-

tion manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Robert J. Blackwell Assistant Secretary for Maritime Affairs
