Public international air law (Book, 2008) {WorldCat.org}

Aviation law is the branch of law that concerns flight, air travel, and associated legal and business concerns. Some of its area of concern overlaps that of admiralty law and, in many cases, aviation law is considered a matter of international law due to the nature of air travel. However, the business aspects of airlines and their regulation also fall under aviation law. In the international realm, the International Civil Aviation Organization provides general rules and mediates international co

New technologies also now capture the attention of Air Law, including Unmanned Aerial Vehicles (drones) and space transportation.Public International Air Law, Second Edition is a must not only for law students but also for practicing lawyers, government officials and policymakers, airlines, insurers, and members of the public who are interested in air law.

010-01 International Law: Conventions, Agreements, Organizations; 010-02 Airworthiness of Aircraft; 010-03 Aircraft Nationality and Registration Marks; 010-04 Personnel Licensing; 010-05 Rules of the Air; 010-06 Procedures for Air Navigation - Aircraft Operations; 010-07 Air Traffic Services and Air Traffic Management; 010-08 Aeronautical Information Service; 010-09 Aerdromes (ICAO Annex 14)

Aviation law – Wikipedia

A basic principle of international air law is that every state has complete and exclusive sovereignty over the airspace above its territory, including its territorial sea. At the turn of the 20th century the view that airspace, like the high seas, should be free was sometimes advanced. But the principle of airspace sovereignty was unequivocally affirmed in the Paris Convention on the Regulation of Aerial Navigation (1919) and subsequently by various other multilateral treaties.
